Loma Linda University Medical Center now offering free valet parking for patients and visitors

Current phase of campus transformation project has reconfigured front entrance to hospitals,

closing main entrance to Children's Hospital

LOMA LINDA, CA – April 14, 2016 – As of April 12, patients and visitors to Loma Linda University Medical Center (LLUMC) and Children's Hospital are now being provided with complimentary valet parking due to the reconfiguration of the front entrance to the hospital.

The current patient parking area in front of the main hospital has been closed in preparation for the construction of the new adult hospital and Children's Hospital expansion projects. This has also closed the main entrance to Children's Hospital.

The patient parking structure located on the northeast corner of Barton Rd. and Campus St. is in the final stages of construction and is expected to open for self-parking in June. Complimentary valet service to patients and visitors will be offered until then.

For those coming to the LLUMC campus, vehicles must enter via Prospect Ave. and will be guided to either valet parking or the pickup and drop off area in front of the adult hospital.

Please refer to the attached map for further clarification.

Valet attendants will be parking cars seven days a week while the main entrance doors to the hospital are open, 4:30 a.m. to 9:00 p.m. They will be retrieving cars 24 hours a day.

Patients and visitors arriving at the hospital 9:00 p.m. to 4:30 a.m. can enter through the emergency department and self-park in the West Hall parking structure, both located on Campus Street.

Once the new patient parking structure is open, the patient pickup and drop off area will remain the same, and valet will be available for those who choose to use it.

Loma Linda University Health administration appreciates the community's patience and understanding in the coming months as preparations are made for the official groundbreaking of the new hospitals, which is slated for Sunday, May 22.

More information on the Loma Linda University Health campus transformation project can be found [here](#).

[About Loma Linda University Health](#)

Loma Linda University Health includes Loma Linda University's eight professional schools, Loma Linda University Medical Center's six hospitals and more than 900 faculty physicians located in the Inland Empire of Southern California. Established in 1905, Loma Linda University Health is a global leader in education, research and clinical care. It offers over 100 academic programs and provides quality health care to 40,000 inpatients and 1.5 million outpatients each year. A Seventh-day Adventist organization, Loma Linda University Health is a faith-based health system with a mission "to continue the teaching and healing ministry of Jesus Christ."
